

To whom it may concern,

This is a character reference for George Apostolidis from LGA Home Builders.

We had the pleasure in obtaining the services of George to proceed with renovations to our home. We say it was a pleasure, because the whole experience was a very smooth process.

We found George to be very punctual, reliable, honest and he was a very good communicator. If there was any concerns, he was very quick to handle the situation or solve the problem.

His quote was very accurate and the people he hired turned up on time due to George's excellent management skills. The job was completed on time and we had no complaints.

The renovation was a huge success and we have received many complimentary remarks from friends and family. George had great ideas and was very practical in his approach to the whole project. We had no qualms leaving George in charge and the key to our house.

We would highly recommend George to our friends and family for any building projects.
