To Whom It May Concern:

George Apostolidis has been involved with the company on a sub contractor basis and recently as a supervisor. In what has been an extremely difficult company environment George has progressed well and established a very good working relationship with his clients and contractors.

I have found him to be very honest, reliable and a team worker whom I can rely on. In the event he was able to further develop his skills with a successful group I have little doubt he would succeed.

I have no doubt in recommending George in any future position he may consider.

Yours sincerely

Mark Phillips
